Respected Data Analytics Hiring Manager,

I am writing to express my interest in the Data Analyst Internship position at Microsoft. I am a penultimate year Computer Science student at Vishwakarma Institute of Information Technology ,Pune and I ampassionate about technology and the financial industry. I am excited by the opportunity to work on latency-critical applications that directly improve the market, and I am eager to learn from the best in the business at Microsoft.

I have a strong academic background in Computer Science, with a focus on software engineering. I have taken courses in algorithms, data structures, operating systems, computer architecture, and software design. I have also gained practical experience through my coursework and personal projects. For example, in my Software Engineering class, I developed a team-based project to build a web application that allows voters to vote on online platform . I was responsible for the designand implementation of the backend of the application, using Java and Spring Boot.

I am also proficient in C++ and Java, and I have experience with a variety of other technologies, including Python, SQL, and NoSQL databases. I am a quick learner and I am always eager to take on new challenges. I am also a team player and I am confident that I can work effectively with others to achieve common goals.

I am particularly interested in the Software Engineer Internship position at Microsoft because of the company's culture of innovation and excellence. I am also excited by the opportunity to work on cutting-edge technology in a fast-paced environment. I am confident that I have the skills and abilities necessary to be successful in this role, and I am eager to contribute to Microsoft success.

Thank you for your time and consideration. I look forward to hearing from you soon.

Sincerely,

Ankush Ingale
